

Please share positive feedback about your experience with your TA (i.e what did they do well, what did you enjoy or learn from them the most, etc).

Student 1 She's a really energetic TA, students feel relaxing in her tutorials

Student 2 Roberta did very well in creating engagement and brining positivity to the tutorial group. She was always uplifting and supportive and often made the class very interesting and engaging even if many people were not participating. She always came to class very happy and would spread her positivity to all the students and though her instruction of the course content.

Student 3 I really enjoyed her tutorials because she was able to convey the content and key takeaways extremely well, while ensuring the learning environment was a positive and uplifting one. Her enthusiasm and passion for this course was unlike anything I've experienced! You can tell she loves to teach, as she treated us more like her friends rather than students.

Student 4 Roberta took the time to explain everything in detail, ensuring that everyone in the tutorial understood the material. She took time when reviewing material and concepts, while also going into detail to make sure students are set up for success. Roberta also spent time after the end of the tutorial answering students questions and helping out with materials and assignments.

Student 5 Roberta was always the highlight of my week. her energy and enthusiasm was infectious and she made us feel like we were all having a discussion as friends instead of establishing a barrier between us. she was always patient with our questions and never made us feel judged. she was overall a wonderful human above just being an amazing TA, and i think anyone who has her in the future is very lucky.

Student 6 My TA was very easy-going and flexible in terms of attendance and being late. She respected that things happen in life and these can affect our schedules in the day. She was very helpful with questions and inquiries on content in the course. She was very approachable and it was easy to have a good connection with her, because of her friendliness and kindness towards all the students.

Student 7 Her lecture style was humorous, and she explained the definition of each term in detail. Secondly, she analyzed the key ideas of the paper three times with us.

Student 8 Super energetic, funny and kind - makes it easy for students to engage in lively discussion during tutorials, allows room for others to chime in. Covered material at a very good pace, leaving just enough time for questions and tutorial activities. Also didn't put people on the spot, which is much appreciated and made coming to tutorials more enjoyable.

Student 9 She made the tutorials very engaging and communicated tips on writing the debate paper and study tips for exams in a very clear way which was very helpful.

Student 10 Roberta is a really nice TA because she is always very active during the tutorial, she really tries to bring up the class atmosphere and made sure we understood the material. It is very obvious that she is very enthusiastic about this subject and her tutorials are always very engaging :)

Student 11 I really enjoyed having Roberta as my TA for SOC100 tutorials. She was always positive bright, and brough an incredible energy to the lessons. She is an extremely good instructor, using her humour to make all our classes super engaging. Even on low-energy class days, she always found a way to bring a smile onto our faces and find new ways to make learning material more engaging. Overall, Roberta was a wonderful TA and someone who always went above and beyond to create a more engaged and enthusiastic learning environment.

Student 12 Roberta always brought great energy for every tutorial and had the class engaged and focused. She explained concepts well that we had a hard time understanding and she didn't make us feel bad for not understanding it and used it as an pathway to help enrich everyone's knowledge. Her outfits were slaying every time so bonus marks for that!

Student 13 She was very kind and positive!

Student 14 really good experience in class, interesting class

Student 15 I think Roberta is a super nice TA! She tries a lot to encourage students to engage in discussion

Student 16 She was super relatable which made it not boring to listen to, it felt like she connected to us a lot better than other TAs I've had. She was encouraging, but not annoyingly so.

Student 17 She is great at teaching and answering questions, and helped me out on a personal level as well as a class level. She is very friendly and personable, and her care for the students is very clear.

Student 18 I really enjoy the tutorial time that spent with Roberta, she always smile and has the ability to infect people.

Student 19 They were very funny, Engaging, knew the the material, and was overall an great experience!

Student 20 Roberta was very engaging and made tutorials fun with her enthusiastic attitude.

Student 21 They were very engaging in tutorials, helped to create an environment I felt comfortable participating in, and was really good at explaining certain things students were confused about.
